## 2 Company Overview

### 2.1 Business Description

{"raw\_text": "Ping An Bank Co Ltd (000001.SZ), a leading joint-stock commercial bank in China and subsidiary of Ping An Insurance Group, operates primarily in mainland China with over 1,120 branches, focusing on retail financial services (personal loans like mortgages and consumer credit for individuals/small enterprises, deposits, bank cards with revolving credit, and intermediary services such as settlements), wholesale financial services (corporate loans, deposits, trade financing, and interbank operations for corporates, governments, and peers), and other treasury/wealth management activities via subsidiary Ping An Wealth Management. Retail banking targets high-net-worth individuals and SMEs for wealth accumulation and daily financing needs, while wholesale serves large corporates for working capital and trade; strengths include technology-driven efficiency (digital transactions ~45% of total), strong brand affiliation with Ping An Group, and prudent risk management (NPL 1.06%), but challenges persist from NIM compression due to rate cuts, retail asset quality pressures, and regulatory scrutiny on real estate exposure. FY2024 (ended Dec 31) total revenue declined amid interest rate normalization, with retail revenue dropping sharply due to asset optimization and provisions, offset by wholesale growth; operating margin pressured by credit losses.[[2]]([\{\}n\{\}n\[\[2\]\]\(<https://static.cninfo.com.cn/finalpage/2025-03-15/1222807195.PDF>\)\[\[3\]\]\(<https://static.cninfo.com.cn/finalpage/2025-03-15/1222806523.PDF>\)", "parsed": {"company\\_name": "Ping An Bank Co Ltd", "fiscal\\_year": "2024", "fiscal\\_year\\_end": null, "key\\_metrics": {"total\\_revenue": "146.7B CNY", "total\\_revenue\\_yoy": "-10.9%", "net\\_income": "](https://static.cninfo.com.cn/finalpage/2025-03-15/1222807195.PDF)
